

Samuel Nkrumah

Data Analyst & Data Scientist Aspirant

Kumasi, Ashanti, Ghana • +233 540 471 000 • nkrumahs240@gmail.com

PROFESSIONAL SUMMARY

MPhil Mathematical Statistics Student at Kwame Nkrumah University of Science and Technology (KNUST) with strong quantitative skills and practical experience in data collection, analysis, and reporting. Combining advanced statistical training with hands-on work at the Ghana Statistical Service and Ghana Education Service. Proficient in Excel and Power BI, with actively developing skills in R for statistical computing, data visualization, and predictive analysis. Passionate about leveraging data to drive evidence-based decisions in education, policy, and development.

EDUCATION

MPhil Mathematical Statistics

Kwame Nkrumah University of Science and Technology (KNUST) 2025 – Present

Bachelor of Education in Mathematics (First Class Honours)

University of Cape Coast 2019 – 2022

Diploma in Psychology and Foundations of Education

University of Cape Coast 2014 – 2017

WORK EXPERIENCE

Mathematics Teacher

Ghana Education Service 2017 – 2022

- Analyzed student performance data using statistical methods to identify learning gaps and improve instructional outcomes.
- Applied data-driven approaches to track, evaluate, and report on student assessment results.
- Developed and maintained educational performance dashboards and reports using Excel.
- Collaborated on curriculum evaluation and departmental planning using quantitative insights.

Enumerator

Ghana Statistical Service 2021

- Conducted large-scale household data collection and field verification for national surveys.
- Performed data validation and quality control to ensure accuracy and completeness of survey records.
- Gained practical experience in sampling procedures and large-scale data operations.

RESEARCH & PROJECTS

Undergraduate Research Project

The Impact of Instructional Materials on the Teaching and Learning of Mathematics University of Cape Coast, 2022

- Led a six-member team in designing questionnaires, collecting, and analyzing educational data.
- Performed descriptive statistical analysis, correlation studies, and data visualization in Excel.
- Presented findings and actionable recommendations to the department.

TECHNICAL SKILLS

- **Data Analysis & Visualization:** Microsoft Excel (Advanced), Power BI
- **Programming & Statistical Computing:** R (in development)
- **Quantitative Methods:** Regression Analysis, Hypothesis Testing, Descriptive & Inferential Statistics, Probability Theory
- **Research & Data Management:** Research Design, Survey Methodology, Data Collection, Validation & Cleaning
- **Other:** Report Writing, Dashboard Development, Educational Data Analysis

LEADERSHIP & COMMUNITY ENGAGEMENT

- Trainee Pastor & Administrator, Victory Bible Church International — Obuasi Province
- Undergraduate Research Team Leader — Coordinated team through full research lifecycle
- Active participant in leadership and mentorship programs focused on continuous learning and service
